13 Months/Moons  
of 28 Days each  
+1 Day Out-of-Time  
= 365 Days which  
makes an actual  
Solar/Lunar Calendar.

## The Elegant Simplicity of the New Time.

The Thirteen Month/28 day calendar is a perpetual, harmonic calendar. It is a genuine solar-lunar calendar which measures the Earth's orbit around the sun by the lunar cycle of 28 days. Thirteen perfect months of 28 days = 52 perfect weeks of 7 days = 364 days. The 365th day is called the Day Out of Time because it is no day of the week or month at all. This day which falls on the Gregorian correlate date of July 25 is a day for forgiveness and the artistic celebration of life and freedom.

The synchronization or new year's date of the 13 Month calendar is July 26, and corresponds to the rising of the great star Sirius. This makes the 13 Month Calendar a tool for harmonizing ourselves with the galaxy.

One of the great advantages of the 13 Month Calendar is that day/date calculations are amazingly simple. The first day of every Month is always the first day of the week. The last day of every Month is always the last day of the week. The Gregorian calendar makes day/date calculations very difficult because the months are of unequal measure so the dates and days of the week vary from month to month and year to year. The Gregorian reference dates are found at the upper-left of each 13 Month date. Find your birthday, every year it will always be on the same day of the same 13 Month week.

The current twelve month calendar is made of months of unequal measure:

31 days, 28 or 29 days, 31 days, 30 days, 31 days, 30 days, 31 days, 31 days, 30 days and 31 days.

If you have a crooked standard of measure, and follow it because your parents were also following it, isn't it still crooked?

Time is the atmosphere of the mind, a mentally perceived phenomenon. So, if you have a crooked or inaccurate measure of time, you will create a crooked mind. Change the calendar. Change the time. Change your mind.

This is not the first time people have used a 13 Month calendar. The Druids kept a "tree" calendar, a count of 13 months of 28 days each, plus one day. They were not the only ones to keep such a calendar, the Incas, ancient Egyptians, Mayans, and the Polynesians all kept a 13 month/28 day count. The Lakota Indians kept a 13 month/28 day count based on the keya, or turtle, since the turtle has 13 scales on its back. Modern science has discovered that even dolphins keep time with 13 sets of 28 grooves along their teeth!

13 Month/28-day Calendar. Equal Standard of Measure.	
28 days	Month One. July 26 to August 22
28 days	Month Two. August 23 to September 19
28 days	Month Three. September 20 to October 17
28 days	Month Four. October 18 to November 14
28 days	Month Five. November 15 to December 12
28 days	Month Six. December 13 to January 9
28 days	Month Seven. January 10 to February 6
28 days	Month Eight. February 7 to March 6
28 days	Month Nine. March 7 to April 3
28 days	Month Ten. April 4 to May 1
28 days	Month Eleven. May 2 to May 29
28 days	Month Twelve. May 30 to June 26
28 days	Month Thirteen. June 27 to July 24

1	1	2	3	4	5	6	7
2	8	9	10	11	12	13	14
3	15	16	17	18	19	20	21
4	22	23	24	25	26	27	28

Each Month has four seven-day weeks.

## Did You Know . . .

... The moon circles the earth thirteen times in one year?  
 ... In the current global standard calendar, a month doesn't correspond to one natural cycle?

... The word "calendar" comes from the Roman word, "calends", which was the name of the account book, the book recording monthly debts and bills?

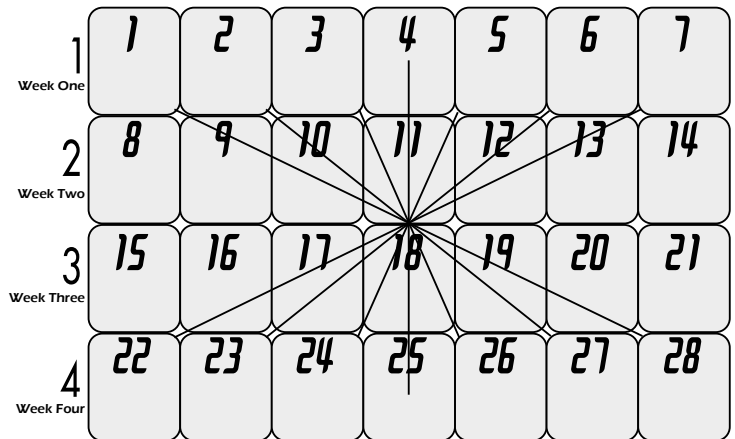

... September means seven, but is the ninth month?  
 ... July and August are named for Julius and Augustus Caesar?

Current Twelve Month Calendar. Months have unequal units of measure.

If today is Tuesday, June 1st, what day of the week will July 1st be? August 1st? November 1st?

If you were to build a house, wouldn't you use a ruler of equal measure?

The 28 day calendar is a Radial Matrix!

The sum of the first and last day equals 29. If you progress inwards, you will notice that each day paired with its opposite equals 29 (27+2), (26+3), etc.

Every month has the same number of days!

13 months x 28 days = 364 days + 1 Day Out of Time = 365 days  
 13 months x 4 weeks = 52 weeks
